

_DWA_03.5 Knowledge Check_DWA3.2

1. User story(ies) in Gherkin syntax for the "+" button.

As a user, I want to be able to add a number to the tally count with the "+" button, so that I can keep track of the number of items.

Given the current tally count is 0,

When I press the "+" button,

Then the tally count should increase by 1.

2. User story(ies) in Gherkin syntax for the "-" button.

As a user, I want to be able to subtract a number from the tally count with the "-" button, so that I can keep track of the number of items.

Given the current tally count is 5,

When I press the "-" button,

Then the tally count should decrease by 1.
